ISP 2012 Crash Reduction Group

May 1, 2013

TO: Honorable Michael R. Pence
Governor

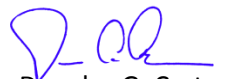

FROM: Douglas G. Carter
Superintendent of the Indiana State Police

SUBJECT: 2012 Annual Report

It is an honor to present the 2012 Indiana State Police Annual Report. This report provides a concise overview of the department's performance and accomplishments related to traffic, criminal and public service actions over the past calendar year.

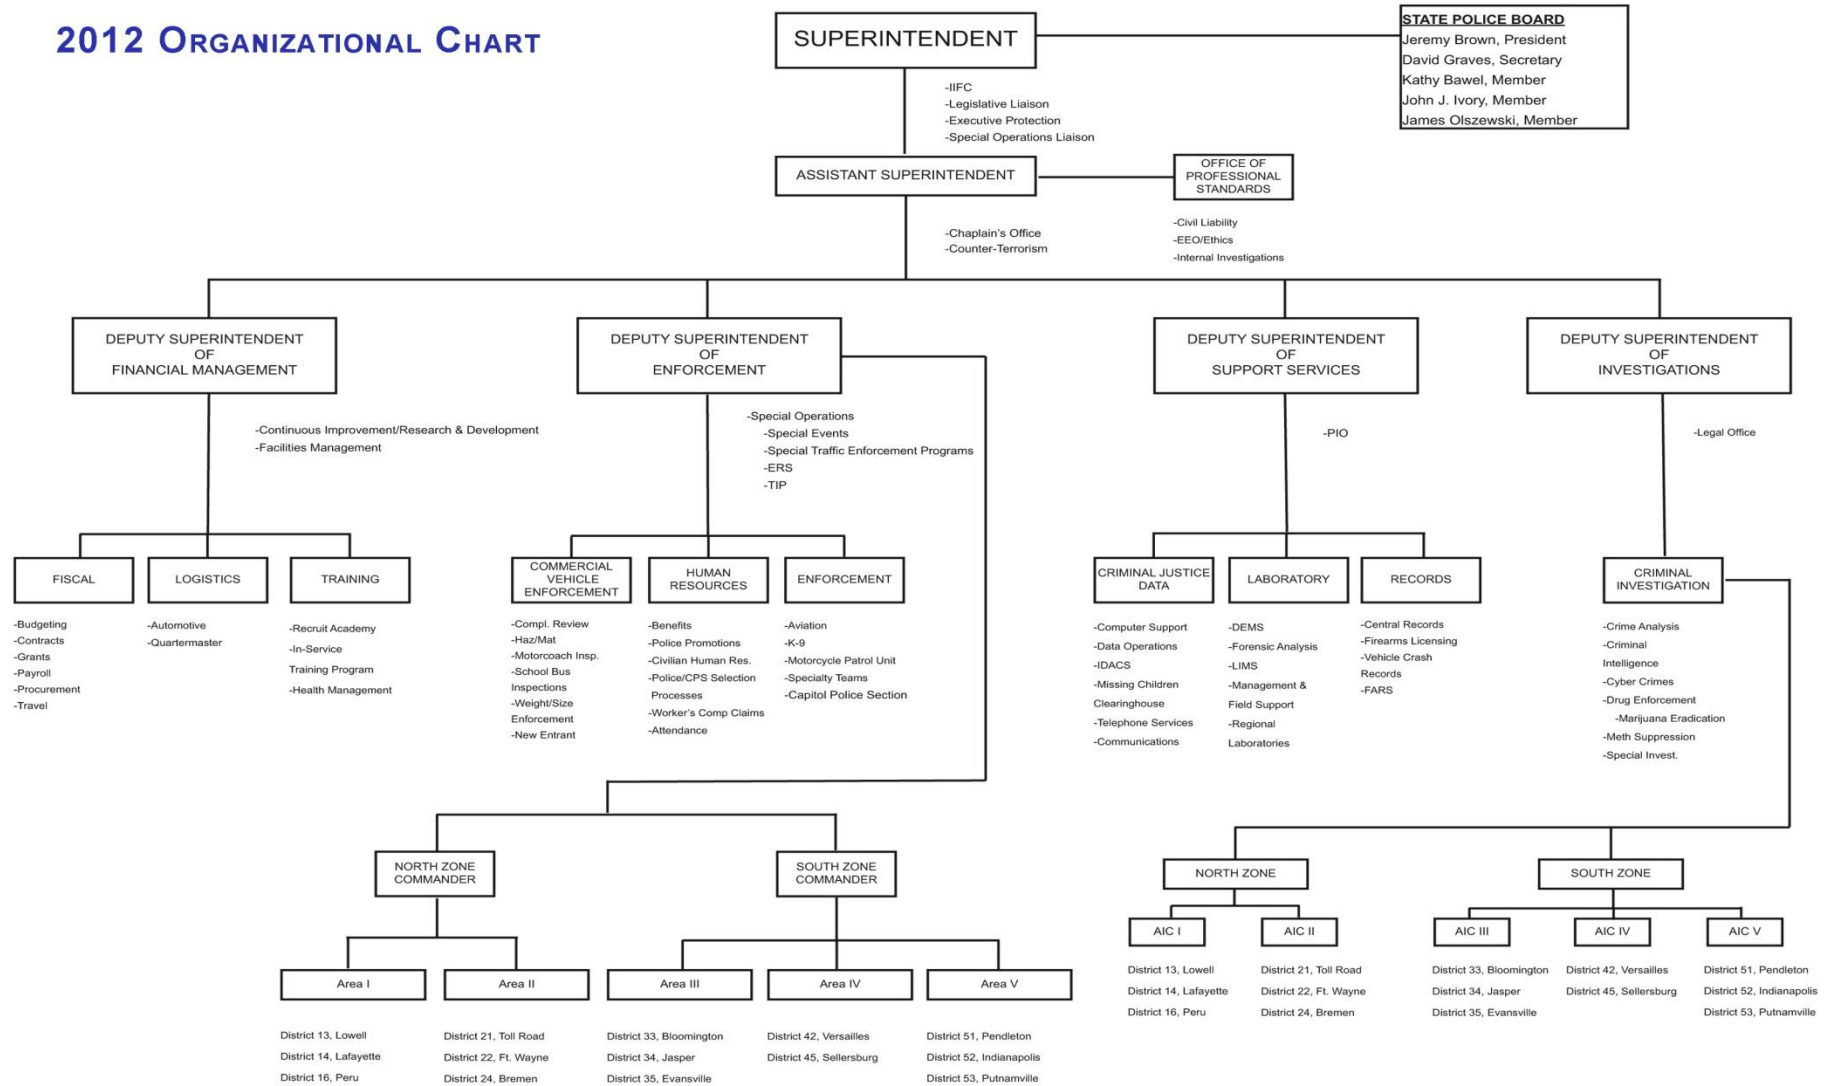

Moving forward on the path from good to great, the Indiana State Police will be committed to the core tenets of Integrity, Loyalty and Community in all aspects of service provided to the citizens and guests of the Hoosier State. This will be accomplished through the dedicated efforts of the more than 1,800 sworn police and civilian staff moving the Indiana State Police into its 80th year of proud service.

Respectfully submitted,

Douglas G. Carter
Superintendent

Office of the Superintendent

Legal Office

The Legal Office provides legal research and counsel to the executive staff and command staff regarding legislation, legal, personnel and contractual matters. The office also responds to inquiries from department employees facing legal issues.

The Legal Office performs a variety of functions including:

- Legal Office personnel provide training regarding new legislation and changes in case laws that affect the department's operations.
- Claims for department vehicle damage are processed by Legal Office personnel, who also coordinate with the State Attorney General's Office for collections and/or litigation of damage claims. In 2012, \$149,220.01 was collected as a result of commission crashes when the other driver was at fault.
- The administrative prosecution of all firearms permit cases is managed by the Legal Office. In 2012, 1,381 firearms hearings were held resulting in the revocation of 536 licenses.
- Personnel coordinate efforts with criminal and civil courts.
- Legal Office personnel process all litigation and coordinate with the State Attorney General's Office as to legal strategy and responsive pleadings.
- Legislative initiatives are reviewed by Legal Office personnel, who provide information to legislators on the department's positions and concerns regarding pending legislation.

	2012
New Lawsuits Filed	25
Tort Claims Filed	55
Lawsuits Disposed of through Settlement, Dismissal or Summary Judgment	*9

*This number represents only the cases the department received with actual documentation of disposition.

Indiana Intelligence Fusion Center

The Indiana Intelligence Fusion Center (IIFC) analyzes and disseminates information regarding criminal, gang and terrorist activity within Indiana, while following fair information practices and ensuring the rights and privacy of citizens.

The IIFC is a 24-hour centralized intelligence sharing network staffed with personnel from Indianapolis Metropolitan Police Department, Indianapolis Fire Department, Marion County Sheriff's Department, Danville Police Department, Indiana State Police, IUPUI Campus Police, Indiana Department of Corrections, Indiana Department of Natural Resources, Indiana State Excise Police, Indiana Attorney General's Office, Indiana National Guard, Federal Bureau of Investigation, U.S. Department of Homeland Security, and Transportation Security Administration.

- IIFC completed 8,053 requests for information representing a 29% increase over 2011 and a 70% increase over 2010.
- One hundred thirty eight products were authored and disseminated by IIFC including threat assessments, private sector information bulletins, law enforcement bulletins and counter terrorism products.
- Personnel provided 24 classified intelligence briefings to the state homeland security advisor and other key government partners.
- IIFC personnel conducted full day training for 90 private sector partners.
- The fourth annual Law Enforcement Conference was coordinated by IIFC with over 80 law enforcement professionals participating in the event.

Office of the Assistant Superintendent

Office of Professional Standards

The Office of Professional Standards (OPS) is comprised of the following sections: Internal Investigations, Equal Employment Opportunity and Ethics.

Internal Investigations Section

The Internal Investigations Section serves as a central repository for allegations of employee misconduct, preliminary inquiries and internal investigations. Personnel conduct lengthy and complicated investigations involving allegations of employee misconduct. Completed preliminary inquiries and internal investigations are sent to the section, checked for accuracy, and forwarded to the superintendent's office for review. The section provides commanders with information on procedural matters regarding internal investigations and past practice as to penalties in disciplinary cases.

2012 Investigations

Formal Investigations	
Internal Investigations	79
Employees Accused of Misconduct	83
Employees Disciplined*	56
Informal Investigations	
Substantiated	80
Unsubstantiated	99

Numbers do not include terminated probationary officers or employees accused of misconduct who retired, resigned or were placed in a disability status prior to disciplinary action.

Equal Employment Opportunity Section

The Equal Employment Opportunity Section (EEO) monitors the EEO/Affirmative Action activities of the department. Section personnel investigate alleged violations of federal and state employment practice laws by and against department employees. The section prepares the department's Affirmative Action Plan (AAP) which assesses the department's progress in

the area of EEO/Affirmative Action and provides guidelines concerning employee conduct. The section additionally provides EEO/Affirmative Action training to all probationary officers prior to graduation from the academy, and EEO/Affirmative Action training is conducted for other department employees upon request.

2012	
EEO Investigations	5
Race Discrimination/Harassment	0
Sex Discrimination/Harassment	2
Other	3
Finding of Cause for Complainant/Victim	1
*Supervisory Action	1

** Includes written reprimands to accused, referral of case to Internal Investigations for possible disciplinary action or measures taken to resolve a dispute (make whole relief).*

Ethics Section

The Ethics Section monitors the ethical behavior of department personnel in the performance of their official duties and personal activities, to include the minimum standards of conduct for state employees. Ethics training is provided for all department personnel as directed by the State Ethics Commission. Section personnel respond to inquiries from department members regarding ethical issues. Requests for formal and informal advisory opinions as to whether an activity is in violation of state ethics rules are submitted to the State Ethics Commission. Ethical violations committed by department employees are reported directly to the State Ethics Commission.

ISP Sellersburg District personnel.

Office of the Deputy Superintendent of Financial Management

Fiscal Division

The Fiscal Division is responsible for all financial aspects of the department. This includes procurement, fund reconciliation, accounts payable, accounts receivable, grants management, payroll, contracting and budgeting.

- Through monthly projected analysis and daily oversight of budgeted funds, the Fiscal Division ended the fiscal year in balance, meeting all required reserve commitments.
- During 2012, the Fiscal Division prepared and submitted the agency's fiscal year 2014-2015 biennial budgets. Each fund was reviewed in consultation with the State Budget Analyst to determine if a cost savings measure could be realized or programs could be eliminated or reduced. The State Budget Agency introduced a new automated budgeting system in 2012, which required additional training of Fiscal Division staff in order to submit the biennial budget successfully.
- The Government Management Information System (GMIS) launched a statewide Encompass 9.1 system upgrade in April 2012. Fiscal personnel devoted many hours to testing and training in preparation for the system upgrade to ensure a smooth transition and minimal down time during the upgrade.
- During 2012, the Fiscal Division managed 51 various grant programs awarded through state and federal agencies. Active open grants were valued in excess of 28.9 million dollars.

Logistics Division

The Logistics Division consists of four sections. The Automotive Section maintains and repairs fleet vehicles. The Installation Section equips ISP patrol vehicles, as well as maintains and repairs emergency, safety, and communications equipment. The Quartermaster Section manages the inventory of department assets, equipment, and supplies, including uniformed personnel gear, automotive parts, and installation equipment. The Fleet Management Section schedules garage appointments, issues vehicles, and develops specifications for new vehicles.

- In 2012, the Automotive Section completed 3,763 work orders; 9,621 total jobs; 1,275 oil changes; 558 tire jobs; and 9,283 labor hours.
- Installation Section personnel equipped and issued 293 new commissions; worked on 951 different commissions; issued 1,497 work orders; completed 2,042 jobs; and charged 8,970 labor hours.
- Installation Section personnel trained two Department of Correction employees to install emergency equipment.
- Quartermaster Section personnel received and issued \$889,341 in automotive parts, and \$1,590,926 in installation parts, and inventoried 10,248 items.
- The Fleet Management Section coordinated the sale of 138 retired commissions for \$132,252.

Facilities Management Section

The Facilities Management Section oversees the preventive maintenance and repair of all ISP buildings. Responsibilities include preparing budgets, writing specifications, preparing and completing bidding of projects, inspecting projects and providing final project completion approval.

In addition to maintaining state police facilities throughout the state, section personnel also perform a range of tasks which include constructing utility buildings, woodworking, snow removal and grounds keeping.

- In 2012, Facilities Management upgraded the security of the Indiana State Police Museum with internal motion detectors, external door sensors and proximity card readers.
- Facilities Management personnel installed a fenced enclosure measuring 250'x125'x10' at the Indianapolis District complex to facilitate K-9 training.
- Facilities Management personnel upgraded the HVAC system at the Versailles District.
- The A/C systems at the Lafayette Post's evidence building and the Peppertown microwave site were upgraded, and personnel constructed an evidence submission room at the Evansville Regional Laboratory.

Training Division

The Training Division is responsible for all department basic and in-service training. Basic training is provided through the ISP Recruit Academy, Indiana Law Enforcement Academy (ILEA) Basic Course, and MCI Basic Course. In-service training is conducted by division staff and ILEA certified department instructors throughout the state. Mandatory recurring training for department sworn personnel includes firearms, defensive tactics, tactical intervention, Emergency Vehicle Operation, Explosive Ordnance Disposal, SCUBA, American Heart Association First Aid, and chemical test operation.

- Division personnel trained and certified 270 sworn personnel as TASER Electronic Control Device (ECD) operators.
- Over 500 sworn personnel were trained for breath test recertification and 35 probationary officers completed the initial certification process.
- In coordination with DHS, the Training Division implemented ENHANCE (State Complex First Aid).
- The division coordinated ARIDE training for over 500 sworn personnel as well as the 72nd Recruit Academy.
- Personnel worked with district commanders to arrange four college student internships.
- Department instructors provided over 1,500 hours of instruction to outside agencies.
- Instructor development courses were coordinated and conducted for 37 people.
- Division personnel coordinated and processed 110 certified instructor recertification applications.
- Department enforcement and civilian personnel received nearly 155,000 hours of in-service training.
- Division personnel processed over 400 requests for training, and trained 18 new EVO instructors.
- Four troopers attended the FBI National Academy in Quantico, Virginia.
- Training Division personnel administered a 14-week field training program for the 37 graduates of the 71st Recruit Academy.
- CrossFit methodology was implemented into physical training for the 72nd Recruit Academy, resulting in increased work capacity and strength with a very low injury rate.
- The Training Division was approved by CrossFit Inc. as a non-for-profit Law Enforcement CrossFit Affiliate, and launched the ISP CrossFit website where daily workouts are posted along with other health and fitness resources.
- The annual firearms armoring program was held in conjunction with the Superintendent's In-service training. Department armorers inspected and serviced over 2,200 weapons.
- Division personnel coordinated the department's transition to a new issued duty handgun, which involved training approximately 1,450 personnel.
- The Indiana State Police Recruit Academy conducted two classes in 2012. On March 16, 38 recruits graduated from the 71st class. On December 21, 48 recruits graduated from the 72nd class. Each class received over 900 hours of training in a 24 week period.

Office of the Deputy Superintendent of Enforcement

Commercial Vehicle Enforcement Division

The Commercial Vehicle Enforcement Division (CVED) enforces commercial vehicle safety throughout the state. The division manages the department's Superload Escort program, Motor Carrier Safety Assistance Program (MCSAP), SafetyNet, and non-division Commercial Vehicle Inspection Programs. The division is responsible for the following areas:

Fixed Scale Facilities: Civilian Motor Carrier Inspectors (MCIs) operate seven fixed scale facilities where commercial vehicle size and weight enforcement is conducted, as well as driver and vehicle safety inspections.

Field Enforcement: Troopers classified as Commercial Vehicle Enforcement Officers (CVEOs) conduct mobile Commercial Motor Vehicle (CMV) enforcement and respond to crashes involving commercial vehicles.

School Bus Inspection: CVEOs are responsible for the inspection of approximately 17,000 public and private school buses.

Compliance Review Squad: CVEOs investigate Indiana-based motor carriers identified as problem carriers by the Federal Motor Carrier Safety Administration (FMCSA).

New Entrant Squad: Comprised of veteran MCIs and a squad sergeant, the mission of the New Entrant Squad is to assist approximately 1,300 new commercial carriers that operate within Indiana annually.

- Indiana legislation was passed granting the Indiana State Police the authority to cite drivers during roadside inspections for transporting perishable foods at dangerously high temperatures. The media called these vehicles “Hot Trucks” and the topic was featured on NBC’s Today Show, and Inside Edition as well as local NBC affiliate WTHR’s special investigative unit.

CVED troopers and a Tippecanoe Department of Health inspector evaluate the conditions of transported foods.

- In 2012, 69,115 inspections were conducted and 9,993 drivers/vehicles were put out of service.
- Weight enforcement totals include: 2,705,444 Weigh-in-Motion (WIM) weighs; 650,597 trucks weighed on permanent scales; 4,191 trucks weighed on portable scales; 5,189 overweight tickets were issued.
- For the fifth consecutive year CVED was named the nation's best CMV Safety Enforcement program by the FMCSA.
- ISP CVED ranked second in the nation for overall Data Quality performance as measured by the FMCSA on numerous elements pertaining to inspection and crash information accuracy and timeliness.
- Grant funds were used to purchase two utility trucks and two portable Performance Based Brake Testers. Forty officers became certified to setup and operate the new equipment, which was used to test 1,520 trucks this year.
- In 2012, CVED worked toward the goal of increasing the rate of seat belt usage for drivers of commercial vehicles to at least 90%. According to the Center for Road Safety-Purdue University/Indiana Criminal Justice Institute Roadside Observation Survey, there was a 90.5% seat belt usage rate for commercial vehicle drivers.
- In November, CVED relocated to a new Motor Carrier Services building at the Ameriplex complex in southwestern Marion County.

CVED troopers conducting performance based brake tests in Hancock County.

Human Resources Division

The Human Resources Division is responsible for processing sworn and civilian positions, administrating police and civilian promotion processes, disability programs, health insurance programs for active and retired members, retirements, and resignations. The division oversees line-of-duty injury claims, the Deferred Retirement Option Program (DROP) and sworn pension program administration, overtime, regular attendance processing, and employment verifications. The Human Resources Division also maintains all department personnel insurance and pension files, and ensures compliance with federal and state laws.

- In October 2011, the 72nd Recruit Academy Selection Process was announced and 3,311 applications were received. The 72nd Recruit Academy began in July 2012 with the hiring of 77 recruits. On December 21, 2012, 48 probationary officers were appointed.
- The 18th and 19th Capitol Police Section Selection Processes were completed, resulting in the hiring of 22 officers.
- A process was started to facilitate the re-pricing of line-of-duty claims through a third party vendor. Current savings are approximately \$50,000 per year, and projections indicate future savings will increase to approximately \$250,000 per year.
- In order to generate cost savings, Human Resources administered the state's Voluntary Unpaid Leave program.
- The department continues to participate in and receive reimbursements from the Retiree Drug Subsidy program. In March 2012, \$481,160.57 was deposited into the 401(h) to help reduce the unfunded liability for retiree medical benefits.
- At year end, over \$17 million had been deposited to the 401(h) and 115 Trust in order to address the unfunded retiree insurance liability.
- The ISP Health Care Plan Open Enrollment was conducted entirely on-line through PeopleSoft.
- The Human Resources Division continues to respond to changes required as a result of health care reform. Plan changes were implemented to comply with new requirements, and to offset rising expenses.

Enforcement Division

The Enforcement Division is comprised of the Capitol Police Section, the Aviation Section, Motorcycle Patrol Unit, Patrol K-9 Program, Specialty Teams, Special Operations Section, and Areas 1, 2, 3, 4 and 5.

The Enforcement Division is also responsible for writing and administering various plans and federal traffic safety grants, which include:

- Comprehensive Emergency Management Plan (CEMP)
- Continuity of Government (COG)
- Continuity of Operations Plan (COOP)
- Emergency Operation Center (EOC) for emergency management with Homeland Security
- ISP INDOT pickup truck commissions
- License Plate Reader (LPR) Program
- Strategic National Stockpile (SNS) with the Indiana Department of Health
- Combined Accident Reduction Effort (CARE)
- Driving Under the Influence Enforcement Project (DUIEP)
- Motorcycle Unit Patrol (MUP)
- Mustangs Enforcing Motorcycle Safety (MEMS)
- Operation Pull Over (OPO)
- Reducing Intentional Dangerous Driving (RIDD)
- Rural Demonstration Project (RDP)
- Selective Traffic Enforcement Project (STEP)

Capitol Police Section

The Capitol Police Section (CPS) serves as the primary law enforcement entity for each of the state properties in downtown Indianapolis which include: White River State Park (WRSP), Indianapolis Zoo, The Indiana State Museum, Eiteljorg Museum, Military Park, NCAA Headquarters, Indiana War Memorial, American Legion Mall, University Park, Veteran's Memorial Park, Soldiers and Sailors Monument, the USS Indianapolis Monument, and the governor's mansion. These areas are in addition to the Indiana Government Center Campus, the Indiana Statehouse, the Indiana State Police Headquarters Laboratory, and the Indiana State Department of Health.

- In 2012, Capitol Police officers investigated 166 criminal incidents and documented 252 non-criminal incidents.
- Capitol Police officers provided support for several downtown Indianapolis events, to include: Indy Jazz Festival, Indy Pride Festival and Parade, Rib America Festival, White River State Park's Summer Concert Series, Circle of Lights, along with numerous sporting and charitable events held in the White River State Park and along the downtown canal. Additionally, CPS provided support to the Monumental Marathon, Super Bowl XLVI,

Memorial Day/500 Parade and events, as well as a variety of other events at the Indiana War Memorial, White River State Park and other surrounding downtown areas.

- The CPS K-9 Units assisted with Indianapolis Colts games, races at the Indianapolis Motor Speedway, Judicial Conferences, as well as several events at Lucas Oil Stadium and concerts at White River State Park.

Aviation Section

The Aviation Section supports a variety of law enforcement missions across the state. The section is staffed with six sworn pilots and one civilian pilot, who serves as the Section Director. Equipment includes two single-engine Cessna airplanes, three Bell helicopters, and one Beechcraft King Air turbo prop airplane. In addition to providing aviation support to law enforcement agencies throughout the state, the Aviation Section routinely transports personnel from a variety of state agencies, including the Governor and Lieutenant Governor.

In 2012, Aviation Section pilots flew a total of 1,068 accident-free hours while responding to 20 off-duty callouts, 35 searches, 30 photo details, and 17 special events, including an active participation in Indianapolis Super Bowl XLVI air security.

Aviation Activity	Hours
Transportation	324
Marijuana Eradication	162

TOTAL	702

Motorcycle Patrol Unit

The Motorcycle Patrol Unit operates in congested areas, provides security escorts, and works with the districts to reduce traffic fatalities on heavily traveled roads. The unit consists of 25 Harley Davidson motorcycles. Motorcycle Patrol personnel are assigned to one of three geographical areas: north, central, and south. In 2012, the Motorcycle Patrol Unit assisted with security and provided traffic direction and enforcement during the following events:

- Brickyard 400
- Indianapolis 500 race
- DUI Saturation Patrols
- Red Bull Indianapolis GP Race
- Escorts and security for Governor Mitch Daniels and Governor-elect Mike Pence
- Right to Work Rallies
- Super Bowl XLVI
- Thunder Over Louisville
- Visits from President Obama and Vice President Biden

Patrol K-9 Program

The ISP Patrol K-9 Program consists of 31 K-9 teams assigned to headquarters, the Drug Enforcement Section, and the 13 state police districts.

- In 2012, the program conducted the first K-9 class completely instructed by ISP trainers and personnel. Thirty-three K-9 teams were certified.
- Construction began on a K-9 training area and classroom at the Indianapolis District.
- The K-9 team assisted in the planning and sponsoring of the 2012 International Police Working Dog Association (IPWDA) Nationals, which hosted 16 master trainers and over 120 canine teams from 60 agencies. One ISP K-9 handler became certified as an IPWDA trainer. For their continued support and promotion of IPWDA, the ISP Patrol K-9 team received the Presidential Award. The K-9 Program coordinator was presented with the Distinguished Service Award from the IPWDA.
- The Patrol K-9 teams assisted with 4,148 details, of which 1,025 were assisting other agencies. Details included: 189 tracks, 1,850 drug searches, 514 criminal arrests, over 4,428 pounds of illegal drugs confiscated, and over one million dollars in cash seized.

ISP K-9 personnel conduct a training demonstration

Specialty Teams

The department's specialty teams include Underwater Search Rescue/Recovery Team, Hostage Crisis Negotiators, Critical Incident Stress Management Team, and Honor Guard Team.

Underwater Search Rescue/Recovery Team

The Underwater Search Rescue/Recovery Team (USRT) has 40 members divided into three teams: north, central, and south. The teams have a total of 35 divers and 5 support officers. USRT members respond to all types of water-related emergencies and crime scenes.

- The USRT trained 10 new divers during a four-week school conducted in Indianapolis and Logansport. Each new diver completed more than 50 hours of classroom instruction, 50 hours of pool work and conducted 22 open water dives. All students graduated with an Advanced Open Water Diver Certification.
- USRT assisted the U.S Army at the Muscatatuck Urban Training Center in replicating a flooded city for training first responders in water rescues.

Hostage/Crisis Negotiators Team

The Hostage/Crisis Negotiators (HCN) team consists of 38 members who are trained to diffuse tense situations including high risk warrant services, suicidal subjects, barricaded subjects and hostage situations. The negotiators are divided into three teams: north, central and south. In 2012, HCN conducted a 40 hour basic school and trained eight new negotiators. The HCN team responded to 13 calls for assistance in the past 12 months.

Critical Incident Stress Management Team

Employees involved in any traumatic incident are offered the services of the department's Critical Incident Stress Management (CISM) Teams to help mitigate the effects of traumatic incidents which department personnel may be exposed in the course of their duties. The ISP CISM Team is comprised of 42 members: 23 police employees; 15 chaplains; 3 dispatchers; and 1 motor carrier inspector. This team is registered with the International Critical Incident Stress Foundation. In 2012, the ISP CISM deployed 15 times providing direct services to 17 different agencies.

Honor Guard Team

The Honor Guard Team is deployed to conduct funeral services for active and retired department employees or persons authorized by the superintendent. Funerals are defined by four levels based on employment status and cause of death. The Indiana State Police Honor Guard consists of five Honor Guard Teams. Each team has eighteen members (three 6-member teams) and includes a Color Guard and Funeral Team.

Special Operations Section

The Special Operations Section is comprised of the Emergency Response Section, Special Events, Tactical Intervention Platoon, Crash Reduction Section, and Explosive Ordnance Disposal Team. The section is also responsible for stealth vehicles, dignitary protection and collegiate athletic events.

Emergency Response Section

The Emergency Response Section (ERS) is the specialized tactical unit for the Indiana State Police. The section is responsible for emergency response administration, deployment, and training. ERS personnel instruct department members in defensive tactics, firearms, active shooter response, and other tactical disciplines.

- Robotic equipment was acquired to heighten safety during tactical operations.
- Three Hazardous Devices Technicians have been assigned full-time to ERS. In 2012 the technicians successfully completed 65 operational standby details, 6 Robot/SWAT assist details, 42 training, and 15 public appearances.

ERS Statistics

Barricade/High Risk Assists	46
Warrant Service	175
Physical Arrests	251
Special Surveillances	50 days
Protection Details	26 days
Team Training	324 days
Instructor Assignments	242 days

Special Events

Special Events manages and assigns department personnel to provide security and traffic direction to several large-scale events. In 2012, the special events included:

- 500 Festival Mini-Marathon
- Big 10 Football Championship
- BMW Golf Championships at Crooked Stick Golf Club
- Circle City Classic Football Game
- Downtown Indianapolis Fourth of July celebration
- FFA National Convention
- Henryville Tornado Response
- Hurricane Sandy State Incident Management Team Response
- INCOPS Bike Ride
- Indiana Black Expo, Summer Celebration
- Indiana Boat, Sport, and Travel Show
- Indiana Department of Homeland Security State Exercise
- Indiana State Fair
- Indianapolis 500 Qualifications and Race
- Indianapolis Air Show
- Indianapolis Colts/Lucas Oil Stadium Public Safety liaison
- IHSA State Football Championships
- Motorcycles on Meridian
- NHRA Full Throttle U.S. Nationals Drag Race
- Red Bull Indianapolis GP Race
- Special Olympics International Torch Run Conference
- Super Bowl XLVI
- Super Weekend at the Brickyard Race
- Thunder Over Louisville

Tactical Intervention Platoon

The Tactical Intervention Platoon (TIP) is comprised of 185 specially trained and equipped personnel divided into 16 squads across the state. These personnel specialize in crowd management and quelling civil disturbances. TIP members take a proactive approach to crowd control by interacting with the crowds on a positive level prior to any incident. The most notable event during 2012 was Super Bowl XLVI. TIP personnel worked with Indianapolis Metropolitan Police Department to maintain order of a crowd of over 200,000 people in downtown Indianapolis.

Crash Reduction Section

The Crash Reduction Section utilizes statistical analysis to develop crash reduction plans, and targets high crash roadways throughout the state to implement those plans. Based on the previous year's crash statistics, a Statewide Crash Reduction Plan was created and implemented in 2012. To achieve results in crash reduction, troopers patrol high crash roadways taking enforcement action on crash causation traffic violations. In 2012, enforcement actions in the 41 identified high-crash areas resulted in an 8.3% reduction in motor vehicle crashes.

OWI Patrol Results

	March Patrols	September Patrols
OWI Patrol Man Hours	8,491	8,538
OWI Arrests	373	346
Driving While Suspended Arrests	271	278
Citations	3,717	4,105
Warnings	6,262	6,646

Explosive Ordnance Disposal Team

The Indiana State Police Explosive Ordnance Disposal (EOD) Team has 40 members: 15 FBI certified Hazardous Devices Technicians, two Technician-Selects, and 23 Explosive Ordnance Reconnaissance Officers including three Explosive Detection Canine Handlers. In 2012, the EOD Team completed 195 operational details, 54 training details, 22 PIO details, and 2,295 K-9 EOD details. EOD personnel assisted with the following details during 2012:

- 2012 concert series at White River State Park
- Brickyard 400 Race events
- Indiana Judges Conference
- Indiana Legislature security details
- Indiana State Fair
- Indiana University football and basketball games
- Indianapolis 500 Race events
- Indianapolis Colts football games
- NHRA U.S. Nationals Race events
- Notre Dame football games
- PGA Golf Championship
- Presidential, dignitary and election campaign protective details
- Red Bull Indianapolis GP Race events
- Super Bowl XLVI

Area 1

Area 1 is comprised of the Lowell, Lafayette and Peru districts. The Lowell District is located in northwest Indiana and is responsible for several of the heaviest traveled interstates for commercial motor vehicles in the nation. The district is within the lake effect snow belt, which contributes to numerous traffic-related incidents. The Lafayette District is located in west central Indiana. Because of the presence of Purdue University, the district has one of the most diverse populations in the state. The Peru District is located in north central Indiana. Within the district is Grissom Air Reserve Base, home to the Strategic Air Command 305th Bomb Wing. U.S. Highway 31 is the major north/south artery running the length of the district, and much of the district's traffic travels this road.

Area 2

Area 2 is comprised of the Toll Road, Fort Wayne, and Bremen Districts. The Indiana State Police is the only police agency with a formal contract with the Indiana Toll Road Concession Company, and is the only police agency which provides law enforcement services on the Indiana Toll Road. Toll Road District personnel patrol 156 miles of Interstates 80/90 in the seven most northern counties of Indiana from the Illinois to the Ohio state line. The Fort Wayne District consists of eleven counties in northeastern Indiana, and is the largest geographic district in the state. The auto industry is well represented within the district. One of the world's largest classic auto auctions is held annually in Auburn. General Motors has a Chevrolet and GMC truck assembly plant located in Fort Wayne. The district is responsible for 122 miles of Interstates 69 and 469. The Bremen District is located in north central Indiana, and covers approximately 1,900 square miles in four counties. The largest Amish settlement in Indiana is within the district. Major highways include U.S. Highways 6, 30, 31, 33, and the U.S. 20 Bypass.

Area 3

Area 3 is comprised of the Bloomington, Jasper and Evansville Districts. Located in southern Indiana, the Bloomington District covers six counties, and is home to the main campus of Indiana University. Also located in the Bloomington District is Brown County State Park, which receives over one million visitors per year; and the Crane Naval Surface and Warfare Center, the third largest Navy installation in the world. Major highways include Interstates 69 and 70, U.S. Highways 50, 231, and State Highways 37 and 45/46 Bypass. The Jasper District is located in southwest Indiana and covers seven counties. The district is uniquely rural and has no city with a population larger than 15,000. Major highways in the district include Interstate 64, U.S. Highways 50, 150, 231 and several state highways. The Evansville District is comprised of six counties in the southwest corner of the state, along the Wabash and Ohio Rivers. The Evansville area draws thousands of visitors for events such as the Evansville's Shrinersfest and the Frog Follies, the largest pre-1949 street rod event in the world. Major highways in the district include Interstates 64, 69, 164, U.S. Highway 41 and State Highways 66, 62 and 57.

Area 4

Area 4 is comprised of the Versailles and Sellersburg Districts. The Versailles District encompasses ten counties in southeastern Indiana covering 3,469 square miles, which accounts for ten percent of the land mass of Indiana. The district is home to the Muscatatuck Urban Training Center, Camp Atterbury, the Muscatatuck National Wildlife Refuge, the Big Oaks National Wildlife Preserve and Brookville Lake. The Sellersburg District serves five counties in south central Indiana. The two main interstates are 65 and 64. Due to structural integrity, the Sherman Minton Bridge, which connects I-64 to Louisville, Kentucky, was closed in September 2011. District troopers worked an additional 3,600 special patrol hours in the re-route zone until the bridge was reopened in February 2012.

On March 3, 2012, tornados caused significant destruction in the Versailles and Sellersburg Districts. The town of Henryville was virtually destroyed and numerous injuries along with major property damage were reported. Area 4 personnel responded to the Hoosiers affected by the tornados, and over the following weeks, provided support to the affected areas as recovery and clean-up operations commenced.

Area 5

Area 5 is comprised of the Pendleton, Indianapolis and Putnamville Districts. The Pendleton District covers eight counties in east central Indiana, including the urban areas of Muncie, Anderson, and Richmond. The post is located outside of the town of Pendleton, and is surrounded by several Department of Corrections facilities. Several universities are located within the district including Ball State University and Earlham College. The district covers Interstates, 69, 70 and several U.S. and State Highways.

The Indianapolis District is responsible for the largest metropolitan area in Indiana, and covers seven counties. Within the district are several state facilities including the Indiana Women's Prison, Indiana State Girls and Boys Schools, Indiana Youth and Diagnostic Center, La Rue Carter Hospital, Camp Atterbury, Indiana School for the Deaf, and the Indiana School for the Blind. Interstates 65, 70, 74, 465, 865 and several U.S. and State Highways run through the district. District troopers provide traffic and security assistance for many annual events such as the Indy 500, the Brickyard 400, Red Bull Moto GP, Motorcycles on Meridian, Indiana Black Expo, the Indianapolis Air Show, and the NHRA US Nationals drag races. In 2012, personnel also provided support during the NFL Super Bowl played at Lucas Oil Stadium in Indianapolis.

The Putnamville District serves the citizens of west central Indiana. Within the district are five hospitals, three universities, three state correctional facilities, and a United States Federal Prison Complex housing a penitentiary, federal correctional institution, prison camp, and a death row. Terre Haute is the largest urban area in the district with a population of over 80,000. Troopers patrol Interstate 70 and several U.S. and State Highways within the district.

ISP personnel pictured with the Vince Lombardi Trophy during Super Bowl XLVI hosted by Indianapolis.

Office of the Deputy Superintendent of Support Services

Public Information Office

The Public Information Office (PIO) serves the public and the department with personnel assigned to the ISP museum and Field PIO's assigned to 12 of the 13 state police posts.

Personnel assigned to the museum are responsible for implementing traditional and non-traditional recruiting methods, coordinating ISP youth camps, managing web content, and designing and producing department documents. Awards and promotional ceremonies and the superintendent's annual retiree luncheon are coordinated by the section staff. Additionally, personnel maintain museum displays, procure and sell logo items, schedule and provide tours, and conduct other general business functions.

Field PIO personnel disseminate information related to matters of public safety. Information regularly provided by PIO personnel include updates on criminal investigations, arrests, crashes, road conditions and general public safety information. Information is delivered through web postings, social media, news conferences, as well as print, radio and television media. Providing readily available information and responding to inquiries, PIO personnel have developed strong working relationships with media personnel. Additional responsibilities include coordinating and presenting educational programs on traffic safety, crime prevention and personal safety. District PIO's also serve as recruiters for each of the state police districts.

- Members of the Public Information Office authored 1,305 press releases for the agency on a variety of topics. Several stories received national attention, and highlighted the hard work and dedication of department members.
- Officers conducted 1,020 public programs on traffic safety, personal safety, and crime prevention. They facilitated another 677 programs given by other state police personnel throughout the state.
- The Public Information Office began using NIXLE to release information to the public and media. This service allows messages to be posted to several locations at one time. The messages can also be delivered based on geographical location.
- The Graphics Specialist for the office continually updates maps, fliers, and templates for the agency. During 2012, over 650 unique certificates, identification cards, awards, and resolutions were created.
- New graphic design software and a new computer aided in the creation of several new pieces of artwork for the agency. This artwork is used in various productions, programs and presentations.
- The Public Information Office facilitated eleven youth camps throughout the state attended by nearly 800 youth of various ages. This is the 42nd year for ISP Youth Camps.
- The Public Information Office facilitated staffing for the information booths at the Indiana State Fair and Indiana Black Expo. Officers interacted with diverse populations at these events, recruited for new employees, and answered law enforcement specific questions from the public.

- The Public Information Office creates and manages content for the Indiana State Police website, and websites for the Indiana Intelligence Fusion Center, Meth Suppression Section, Laboratory, ISP CrossFit, and IDACS. In 2012, the ISP website received 1,340,710 visits.
- The Public Information Office worked with training personnel to develop a website specifically dedicated to CrossFit, which was launched in October.
- Numerous time-sensitive updates from Human Resources were published online during the department's hiring processes.

ISP Dodge Charger pictured in front of Lucas Oil Stadium, location of the 2012 Super Bowl.

Criminal Justice Data Division

The Criminal Justice Data Division (CJDD) controls the department's technology-based programs, including the initiative of Regional Dispatch Centers and the implementation of a Computer Aided Dispatch and Records Management System. CJDD also manages the Indiana Data and Communications System (IDACS) for the entire state, and oversees the Indiana Clearinghouse for Information on Missing Children and Missing Endangered Adults.

Many of today's technology projects involve interoperability with federal, state and local governmental agencies. CJDD is the liaison to many other agencies including the Federal Bureau of Investigation, Integrated Public Safety Commission, the Indiana Office of Technology, and the Bureau of Motor Vehicles for technological issues. CJDD disseminates critical information to the field and maintains daily activity statistics for all enforcement personnel.

Information Technology Section

- Information Technology Section (ITS) produced and implemented "SHIELD," a program that tracks and reports general statistics, inventory, training, and daily observation records. The system saves the department approximately 5,000 man-hours every year spent entering daily activity for sworn personnel.
- During 2012, ITS began Phase 1 of a computer refresh project involving the research, testing and purchase of new laptops and printers for ISP personnel. ITS technical staff, in conjunction with the Indiana Office of Technology (IOT), began distribution of the new systems in the fourth quarter of 2012. The project will continue into 2013. Running concurrent and in conjunction with this project, the Telecommunications Section of the Criminal Justice Data Division (CJDD) is upgrading all ISP air cards from 3G to 4G.
- CJDD collaborated with other ISP personnel and vendors to implement a new web-based Record Management System (RMS). The RMS that was activated at the start of the Computer Aided Dispatch (CAD) Program in Region 3 was not meeting expectations. This new system is easier to use and has reduced the time needed for data entry, improving efficiency for ISP's workforce. The entire state transitioned to the new RMS in 2012.
- CJDD staff allocated a considerable amount of time to improve the CAD system. System upgrades implemented during 2012 improved the speed, response time and regional interoperability of the system.

Indiana Data and Communications System

- IDACS partnered with the Indiana Bureau of Motor Vehicles (BMV), the Indiana Department of Correction (DOC) and the Indiana Sheriff's Association (ISA) on two projects regarding the sex offender registry. Each project integrated sex offender databases between the involved agencies.
- IDACS connected with DOC's inmate photo and personal information system, allowing offender images and personal information to be shared via National Law Enforcement Telecommunications System (NLETS). The DOC system will also be integrated with IDACS, eliminating the double entry of all convicted persons on supervised release

updates to IDACS and the national registry. IDACS's responsibility has been completed and ISP is awaiting final approval and work to be completed by DOC.

- IDACS completed the connection to the FBI's Criminal Justice Information Services (CJIS) Division National Data Exchange (N-DEx) system. N-DEx brings together data from criminal justice agencies throughout the United States such as incident/case/arrest reports, CAD calls, UTT's and warnings, photos, booking data along with a host of additional data allowing agencies to detect relationships between people, places, things and crime characteristics to link information across jurisdictions and provide contact information between law enforcement agencies.
- IDACS developed a new database schema specifically for the exchange of Watercraft Registration and Title information with the BMV. This schema was provided to the BMV and NLETS and has since been put into production.

Indiana Clearinghouse for Information on Missing Children and Missing Endangered Adults

- The Clearinghouse participated in a joint venture with IOT and IN.gov to revamp the issuing of alerts, starting with Amber Alerts. The Indiana Broadcasters Association allowed IN.gov to take over the management of www.amberalertindiana.com to insure compatibility and maintain a consistent appearance. This included a move to WebCMS allowing ISP more interactive changes and allows for further expansion. In 2013, ISP will be moving Silver Alerts to WebCMS to maintain consistency between the alert processes.
- There were 16 Silver Alerts activated in 2012; 14 individuals were located by law enforcement alive, 2 were found deceased and one Silver Alert from 2011 is still active. There was one Amber Alert activated; the child was located by law enforcement.

Computer Aided Dispatch/Communications

- Computer Aided Dispatch's (CAD's) impact on Calls for Service (CFS) documentation increased by 1,837 more per month, providing more realistic numbers on services provided by ISP.
- With the regionalization of dispatch centers, software and computer equipment was purchased to improve officer safety and increase efficiency. The CAD program provides a wealth of information for dispatchers to pass down to officers who respond to CFS. The information includes prior runs to a specific location and allows the dispatcher to ask pre-determined questions for the type of call being received. This allows the officer to be pro-active when arriving on location.
- With troopers' ability to initiate their own CFS, radio transmissions have been reduced by an average of 140,302 transmissions per month. This reduction allows more radio resources for emergency radio traffic thus improving overall officer safety.
- The FCC required all of ISP's high band radios at the Regional Dispatch Centers to be narrow-banded by January 1st, 2013. ISP Point to Point and ILEEN radio frequencies, used to communicate with other agencies from each of the Regional Dispatch Centers, have been reconfigured and programmed to meet FCC requirements.

- In cooperation with the Indiana 911 Wireless Board, ISP installed and implemented the Wireless 911 controller system to each of the six Regional Dispatch Centers. This has given ISP the ability to obtain a cellular 911 call from another 911 Center, obtain the phone number of the caller, the caller's location, record the call and automatically create a CFS within the ISP CAD.
- Automatic Vehicle Location (AVL) was adopted by ISP along with regionalizing dispatch centers. This allows dispatch center personnel to view the location of troopers on maps which are displayed at each computer workstation. ISP has benefited from the AVL by increasing trooper safety and efficiency of the Regional Dispatch Centers.
- The final phase was 90% completed on all of ISP's radios pertaining to Federal rules changing. This phase added additional local agency talk groups to all of ISP's mobile and portable radios as agencies join the Hoosier Safe-T System. This project enables ISP officers to talk to other local officers and monitor their radio traffic which enhances officer safety and interoperability between agencies.

ISP personnel in front of the Lincoln Memorial during 2012 National Police Week in Washington D.C.

Laboratory Division

The Laboratory Division accepts evidence for analysis at laboratories located at Indianapolis, Lowell, Fort Wayne, and Evansville. Personnel collect, maintain, and analyze evidence. The laboratories have been accredited by the American Society of Crime Laboratory Directors/Laboratory Accreditation Board (ASCLD/LAB) since 1991. Evidence storage is maintained at the four laboratories and 14 state police districts. Analytical services (DNA, drugs, firearms, latent prints, trace, and documents) and support services (crime scene investigation, crime scene training, polygraph, and photography) are provided to state, county, municipal, and federal agencies to assist in the detection, apprehension, and prosecution of criminals. The Indiana State Police Laboratory is made up of 11 distinct sections or units.

The [Forensic Biology Section](#) provides identification of body fluids, specific determination of biological materials, DNA extraction and evaluation, DNA amplification and typing, DNA profile comparisons, statistical analysis of DNA profile results, and it maintains and searches an offender database for matching profiles.

The [Forensic Drug Analysis Unit](#) identifies, quantifies, and compares controlled substances, non-controlled drugs of abuse, controlled steroids, and diluent materials in drug preparations for investigative intelligence.

The [Forensic Firearms Identification Unit](#) compares and identifies fired bullets and cartridge casings. The unit also examines and compares tool mark evidence, submits items for comparison into the Integrated Ballistics Identification System (IBIS) database, and performs muzzle to target distance determination. The unit also performs serial number restoration, completes function testing of firearms, and characterizes recovered ammunition components.

The [Forensic Latent Print Identification Unit](#) examines and compares unknown to known dermal friction ridge detail. For unidentified suspect investigations, the Automated Fingerprint Identification System (AFIS) database entry/inquiry is employed. The unit also conducts examinations of footwear impressions and tire impressions.

The [Microanalysis Unit](#) provides identification, analysis, and comparison of fibers, paints, tapes, glass, fire debris, plastics, automotive lamps, clandestine laboratory reagents, unknown materials, and building materials. The majority of cases processed by the unit are fire debris related.

The [Forensic Document Unit](#) examines handwriting, authenticates documents (e.g. checks, vehicle titles, driver licenses), and develops indented writing impressions on documents. They also determine the sequence of events on documents, conduct edge to edge (fracture) exams, recover the text of altered/obliterated and charred documents, and determine the source of printed documents.

[Crime Scene Investigators](#) provide technical crime scene processing and court testimony. This includes identifying and collecting potential evidence, reconstructing the events of crimes, and physically linking alleged suspects to the crimes.

The [Crime Scene Quality Unit](#) performs quality assurance audits and assessments for all Indiana State Police evidence storage facilities and each of the Indiana State Police crime scene investigators. The unit conducts training in crime scene processing for local police agencies and the Indiana State Police crime scene investigators. They also assist the Indiana Law Enforcement Academy (ILEA) in certification of crime scene investigators for agencies throughout the state.

The [Forensic Analysis Quality Assurance Unit](#) ensures compliance to laboratory and accreditation quality assurance standards, maintains documentation of quality assurance verification, oversees the implementation of corrective action, and ensures laboratory adherence to proficiency testing standards. The unit also assures laboratory compliance to witness critique requirements and conducts quality assurance-related training for laboratory staff.

The [Polygraph Unit](#) provides polygraph services to the department and other law enforcement agencies. Polygraphs are used extensively in child molestation investigations, when a delay in reporting often results in no available physical evidence.

The [Forensic Photography Unit](#) supports a statewide mug photograph program, provides the majority of photography services for the department, and fulfills maintenance requirements for the department's photography equipment. They also process film for the State Fire Marshal's Office and the Indiana Attorney General's Office. Digital images are uploaded from 14 districts, cataloged and archived.

- The Indiana State Police Laboratory Division achieved a historic milestone by completing an internationally renowned accreditation process which assesses the quality of laboratory operations and scientific procedures. The ISP laboratories have been accredited since 1991. The significance of this new accomplishment is that the accreditation requirements expanded from approximately 150 standards under the original program to more than 450 rigorous forensic lab standards of International Standardization for Organization (ISO). The path to accreditation culminated in March 2012 with a detailed inspection of the four state police laboratories. As part of the accreditation process, 20 trained inspectors from across the nation evaluated the policies, procedures, training manuals and work product of each laboratory. In September, all four laboratories were notified that accreditation had been awarded and is valid until September 2017.
- The Laboratory Division received 18,305 cases for analysis, most of which were submitted from local and county law enforcement agencies.

- The Biology Section began in-house analysis of offender samples. This will result in a shorter period between collection of convicted offender samples and entry into the database. In 2012, 50 cold cases were re-examined utilizing DNA analysis. Of the 50, 38 cases produced Combined DNA Index System (CODIS) eligible profiles and 22 resulted in database hits. In 2012, a total of 534 criminal investigations were aided through CODIS. There have been over 3,000 hits in CODIS since its inception and it continues to be a powerful tool for cold cases and cases with no identified suspects.
- The Drug Unit addressed a significant increase in submissions containing synthetic cannabinoids as well as substituted cathinones in the last year. New derivatives of these substances were a constant challenge for the unit. The drug unit identified over 23 new synthetic compounds that were not listed as controlled in the current statute. A close working relationship with the Indiana Board of Pharmacy proved to be a successful partnership, as it resulted in these 23 compounds being classified as illegal to possess.
- The Drug Unit analyzed 10,833 cases in 2012. Case completions increased more than 11% from 2011.
- The Microanalysis Unit completed 265 cases during 2012. A majority of cases were fire debris cases.
- The Firearms Unit analyzed 1,284 firearm, tool mark, serial number, and ballistic imaging cases for 2012. They also analyzed 28 police action shooting cases, the highest number ever worked in a calendar year by this unit.
- The Firearms Unit conducted an analysis in which a victim was shot to death inside a residence and another victim was shot to death outside the residence. A member of the unit examined several cartridge cases and bullets from the scene. Using the available General Rifling Characteristic Database and research from an Association of Firearm and Toolmark Examiners journal article, the scientist concluded that all the .40 caliber bullets and cartridge cases from the scene were most likely fired in a Smith and Wesson SW40VE. This information was relayed to the crime scene investigator as an investigative lead. Several weeks later, a firearm was found near the home and it was identified as a Smith and Wesson SW40VE. After examining the weapon, the scientist linked one of the bullets and seven of the cartridge cases from the scene back to the firearm.
- The Latent Print Unit analyzed 1,272 cases during 2012, which was significant in light of having four vacancies occur during the year. All of the vacancies have been filled and newly hired scientists are in training and should be certified for casework in 2013. The Unit had 102 AFIS hits in 2012 and has had 509 since 2008.
- The Polygraph Unit conducted 781 polygraph tests during 2012. The unit developed 90 additional leads, cleared 98 cases, and had 95 confessions and significant admissions.
- Crime Scene Investigators conducted 860 investigations involving 1,164 crime scenes. They were called out 414 times and attended 157 autopsies. They testified in 81 different investigations throughout the state.

Records Division

The Records Division is responsible for criminal history records, the Indiana Automated Fingerprint Identification System (AFIS), firearms licensing, and vehicle crash records. The Records Division serves as the central repository for criminal history records, which are searched by law enforcement agencies, as well as employers conducting criminal history background checks on prospective employees and volunteers. The division also maintains and supports AFIS, which facilitates all criminal fingerprint cards for storage and processing to the state criminal history database and Federal Bureau of Investigation. The Firearms Licensing Section manages all matters relating to handgun permits. The Vehicle Crash Records System facilitates electronic crash reporting. Division personnel manage the state's Fatality Analysis Reporting System (FARS), a federal program under the National Highway Traffic Safety Administration (NHTSA). Statistical data from fatal crash reports is collected for highway safety research and directly impacts highway safety funding.

- For the first time, ISP was awarded a National Instant Criminal Background Check System Act Record Improvement Program (NARIP) grant to upgrade the Criminal History Record Information System (CHRIS). The grant provides the opportunity to rewrite the CHRIS program for the first time in 14 years. The upgrade will replace paper files with electronic files, eliminating hundreds of man-hours spent searching, pulling and re-filing paper criminal history records. The Firearms Licensing Section issued 60,906 handgun permits in 2012. The division experienced a dramatic surge in applications beginning in November. During November and December, the Firearms Licensing section received over 26,000 applications.
- The Automated Reporting Information Exchange System (ARIES) 5 upgrade was completed in 2012. ARIES 5 includes the following new features: Point and Click Mapping (allows for easier and more accurate method of locating where a collision occurred); Quick VIN (validates VIN and auto-populates vehicle information into the appropriate vehicle locations); US DOT Number Lookup (auto-populates motor carrier information and searches for the correct carrier).

Office of the Deputy Superintendent of Investigations

Criminal Investigation Division

The Criminal Investigation Division (CID) oversees the investigative efforts of the department and manages programs and grants. Division personnel are assigned to each district and to specialized sections, both in the field and at general headquarters.

	Area 1	Area 2	Area 3	Area 4	Area 5	TOTALS
Investigations	513	475	529	453	507	2,477
Arrests	729	282	561	203	283	2,058
Criminal Charges	1,979	782	1,113	407	622	6,961

- Members of the U.S. Marshals Great Lakes Regional Fugitive Task Force arrested 359 persons wanted by local and federal authorities. The fugitives had a total of 1,129 charges pending against them with the majority being for drug offenses, probation/parole failure to appear, and assaults.
- The FBI Gang Response Investigative Team (GRIT) Task Force arrested 108 persons and complained/indicted 65 subjects in 2012. GRIT seized 158 kilos of marijuana, 28 handguns and 12 rifles. The task force executed 22 search warrants and 32 persons were sentenced during the year.
- The ATF-Firearms Interdiction Regional Enforcement (FIRE) Task Force opened 68 cases, arrested 29 persons, and complained/indicted 52 targets in 2012. Fifty-eight firearms were recovered and \$41,000 was seized. The ATF-FIRE Task Force received 40 referrals from outside agencies for their expertise in investigating gun-related crimes.
- Members of the FBI Public Corruption/Mortgage Fraud Task Force arrested nine suspects and complained/indicted 27 persons during 2012. The mortgage fraud cases had fraudulent purchases and subsequent bank losses of 3.6 million dollars in 55 property loan transactions located in Northwest Indiana.
- Peru District detectives arrested a suspect in a twenty-year-old Miami County murder case. In August 1992, the victim was found murdered in her mobile home in southern Miami County. All leads were exhausted and the case went cold. In 2001, items from the scene were submitted for DNA testing and a DNA profile was obtained and submitted to CODIS. In 2011, a hit was received from CODIS identifying a possible suspect who lived in Biloxi, Mississippi. The investigation revealed that the suspect had lived near the victim at the time of the murder. Detectives obtained additional DNA samples and interviewed the suspect, who confessed to the 1992 murder.
- ISP detectives from Toll Road District investigated candidate petitions collected during the 2008 St. Joseph County primary elections. Prosecutor Mike Dvorak of the St. Joseph County Prosecutors Office indicated that he received information from the South Bend Tribune, alleging that over 200 signatures were forged on petitions collected for both Hillary Clinton and Barack Obama. A witness provided key information outlining the process in which the signatures were collected. The witness stated that the Democratic Party Chairman instructed several members of the St. Joseph County Voter Registration

Office to forge signatures onto blank petitions from previous certified petitions collected during the Jim Schillinger election. One witness admitted to his involvement in forging signatures and provided detailed information to all the parties involved in forging several hundred names on both candidate petitions. Formal charges were filed against four suspects for petition fraud and forgery. All were provided an opportunity to cooperate and provide statements of accountability with their attorneys present. All refused. Handwriting examples were collected from all parties and later submitted to ISP Forensic Documents Unit for examination. Discovery documents in excess of 1,000 pages have been forwarded to opposing counsel. Trial has been continued to April 22, 2013.

- Evansville District detectives investigated an incident in which a suspect was shot by a Petersburg Police Department officer. The officer was dispatched for a welfare check when the suspect, a known methamphetamine abuser, leveled a SKS assault-style rifle at the officer. The suspect was shot by the officer, survived his wounds, and pled guilty to several felony charges.
- Evansville District detectives investigated the death of a one-day-old infant who was pronounced dead after being transported to an Evansville hospital. The infant was born the previous morning at a private home attended by an unlicensed midwife. It was determined that the child died of respiratory distress that likely would not have been life-threatening if she had been examined and treated by a physician. This investigation uncovered a local network of unlicensed and unqualified individuals who are paid to administer prenatal care to mothers and preside over unlawful home births without the supervision of medical professionals.
- In 2012, the U.S. Marshal's Service Great Lakes Regional Task Force Officers assigned to the Indianapolis and Terre Haute offices arrested 283 persons, with 622 charges pending against them. The task force closed cases ranging from FTA's for felony offenses such as rape, burglary, and assault to probable cause warrants for homicide. In 2012, the Indianapolis Task Force Office located 20 homicide suspects, several of which were wanted by agencies outside of Indiana.

ISP personnel at the 2012 Evansville District Memorial Service

Methamphetamine Suppression Section

The Methamphetamine Suppression Section (MSS) is responsible for Clandestine Laboratory Response, Intelligence/Meth Watch Coordination, and Methamphetamine Investigations. There are 17 full-time MSS personnel.

- Personnel investigated 1,246 cases, made 464 retail visits, received 778 criminal tips, and provided 347 public information programs to nearly 328,000 citizens. They referred 172 children for services and attended over 1,600 meetings and court proceedings.
- MSS personnel initiated or assisted with 1,226 clandestine lab seizures, caused the arrest of 1,164 defendants on 3,880 criminal counts, seized 615.8 grams of meth and had 85 incidents of other drug seizures. The 120 members of the Meth Suppression Clandestine Lab Team processed 1,663 clandestine lab crime scenes, caused the arrest of 1,448 defendants and assisted in identifying an additional 534 suspects from methamphetamine labs sites across the state.
- MSS continued building on the utilization and functions of the Indiana Meth Investigation System (IMIS). Nearly 385 IMIS users have been trained to utilize the system throughout the state and major upgrades to the system were implemented in 2012.
- MSS partnered with the Drug Enforcement Administration (DEA) on three fronts. ISP coordinated the attendance of additional ISP and local police officers at DEA-hosted clandestine lab certification, site safety and clandestine lab tactical entry schools. Numerous conference calls were held to reconcile the 2011 and future years' clan lab seizure data in Indiana with the El Paso Intelligence Center's (EPIC) data. ISP assisted the DEA by scheduling a final meeting to assist twelve other states in launching the Authorized Central Storage (ACS) program, which is a cost-saving program for the destruction of hazardous meth lab waste chemicals.

Drug Enforcement Section

The Drug Enforcement Section (DES) is comprised of detectives and technical support personnel whose primary responsibility is to combat illicit drug activity throughout the state.

- During 2012, the Drug Enforcement Section investigated 558 new cases resulting in 191 persons arrested on 612 felony charges. Seventy-seven new confidential informants were developed to assist in 154 drug purchases and 959 intelligence reports.
- A Title III investigation resulted in 29 persons arrested on 29 felony criminal charges, seizure of 12 pounds of marijuana, 30 grams of cocaine, four firearms, \$34,000, and ten vehicles seized. The dismantled group was responsible for over 200 pounds of marijuana and 1.2 kilos of cocaine throughout the duration of the investigation.

Organized Crime and Corruption Unit

The Organized Crime and Corruption Unit (OCCU) conducts and coordinates investigations involving complex financial crimes, fraud, and public corruption. OCCU detectives work closely with the United States Attorney's Offices in Indiana and other federal jurisdictions. Matters leading to federal prosecution are routinely investigated. In 2012, the nine members of the OCCU conducted 100 investigations resulting in 51 arrests.

Vehicle Crimes Unit

The Vehicle Crimes Unit (VCU) investigates complex vehicle-related offenses and recovers stolen property. VCU detectives provide expert assistance identifying stolen property for federal, state, and local agencies. The VCU investigates professional vehicle theft rings and counterfeit vehicle titling. VCU detectives provide specialized training and expertise in the areas of vehicle theft, titling, VIN identification, salvaging, and dealer related matters.

- The four members of the VCU conducted 70 investigations resulting in 86 arrests and the recovery of 63 stolen vehicles. Unit members also inspected 999 vehicles and on 76 occasions, provided expertise in identifying burned, altered and cloned vehicles for other agencies throughout the state and country.
- VCU detectives assisted in the recovery of over 275 stolen ATV's, construction equipment and vehicles. They conducted several investigations into odometer fraud and counterfeit titles, resulting in federal and local charges. They also conducted several investigations into fraudulent dealer and salvage yards throughout the state.

Crimes Against Children Unit

The Crimes Against Children Unit (CACU) conducts and coordinates investigations involving child pornography and child sexual exploitation. The five detectives assigned to CACU conduct internet-based investigations regarding these offenses. The CACU also leads the Indiana Internet Crimes Against Children (ICAC) Task Force, which includes approximately 30 affiliate criminal justice agencies throughout Indiana. CACU detectives are trained as Digital Media Recovery Specialists (DMRS), enabling them to conduct on-scene forensically sound previews of computers, cellular phones, and digital storage media. CACU detectives also have extensive training and experience in interviewing child victims and child sexual predators.

- The CACU partnered with federal and local law enforcement for Operation Sunflower, an international operation led by U.S. Homeland Security Investigations aimed at child pornography and sexual abuse.
- As the Indiana ICAC statewide coordinator, CACU evaluated and assigned 1,580 CyberTips received from the National Center for Missing and Exploited Children.
- CACU detectives conducted or assisted in the service of over 75 state and federal search warrants relating to child exploitation investigations.
- CACU investigations resulted in 77 individuals charged in federal or state courts.
- The CACU held 113 training sessions for law enforcement and civilian organizations with over 14,100 attendees.

Cyber Crimes Unit

The Cyber Crimes Unit (CCU) conducts forensic examinations of computers, digital devices, and electronic storage media. The CCU also includes the state Cyber Crime Complaint Coordinator, who reviews all allegations of online fraud received from the International Internet Crime Complaint Center.

- In 2012, the six forensic examiners assigned to the CCU conducted a total of 387 computer forensic examinations and provided technical assistance at 92 search scenes.
- CCU examined 117,920 gigabytes of data on hard drives containing material of possible evidentiary value.
- Digital Media Recovery Specialists (DMRS) and forensic examiners conducted 674 forensic examinations of cellular phones and other mobile devices. An additional 780 cellular phones were previewed in a forensically sound manner.
- DMRS and forensic examiners conducted forensically sound previews of 693 hard drives with 191,830 gigabytes of data.
- CCU examiners and DMRS conducted 155 on-scene, forensically sound previews for ISP personnel, 58 previews for federal agencies, 23 previews for Indiana ICAC Task Force affiliates, 11 previews for other state agencies, 68 previews for county agencies, and 61 previews for municipal police agencies.

In Memoriam

Trooper Eugene Teague
Killed December 20, 1933, in Paris, Illinois during the capture of members of the Dillinger gang.

Trooper Paul V. Minneman
Killed May 27, 1937, while attempting to capture members of the Brady gang.

Trooper William R. Dixon
Killed June 28, 1938, while attempting to apprehend members of the Easton gang.

Trooper George A. Forster
Killed May 17, 1941, in a traffic accident near Vernon, Indiana.

Trooper Richard F. England
Died April 22, 1942, of injuries sustained in a traffic accident near Kimmel, Indiana.

Trooper Herbert W. Smith
Killed December 5, 1946, near Shelbyville, Indiana when he was fired on by a traffic violator.

Trooper Robert E. Clevenger
Killed September 8, 1953, in a traffic accident while chasing a violator.

Sergeant Hubert Roush
Killed January 26, 1955, in an automobile accident near Indianapolis, Indiana.

Trooper Earl L. Brown
Killed August 31, 1955, while searching a suspicious person in Columbus, Indiana.

Sergeant John R. Miller
Killed September 5, 1955, in an airplane crash while on Labor Day Patrol.

Trooper Donald R. Turner
Killed January 28, 1956, while assisting a wrecker operator pull a car from a ditch.

First Sergeant Marvin E. Walts
Died March 18, 1957, of gunshot wounds inflicted by a suspected bank robber.

In Memoriam

Trooper William R. Kellems
Killed September 30, 1957,
by fugitives wanted for
murder near Scottsburg,
Indiana.

Trooper John H. Powell
Killed February 27, 1959, in a
traffic accident near
Kentland, Indiana.

Trooper Robert J. Garrison
Died December 14, 1959, of
injuries sustained in an
automobile accident.

Trooper Robert C. Gillespie
Killed June 8, 1962, in an
automobile accident near
Mitchell, Indiana.

Trooper William F. Kieser
Killed March 9, 1965, while
investigating a suspicious
person near Ramsey,
Indiana.

Trooper Oscar Mills
Died April 12, 1966, as a
result of injuries sustained in
an automobile accident.

Trooper William R. Rayner
Killed December 18, 1966,
by escapees from a Kentucky
state prison.

Trooper Richard G. Brown
Died September 27, 1967, of
injuries sustained in an
automobile accident in
Boone County, Indiana.

Trooper Robert O. Lietzan
Killed March 30, 1969, by a
mentally deranged subject
armed with a rifle who had
been firing at random from a
barricaded position.

**Sergeant George W.
Campbell**
Died June 18, 1969, of a
heart attack during the
arrest of a truck driver who
attempted to drive by the
Putnamville scales.

Trooper John J. Streu
Killed February 20, 1971,
while investigating two
suspicious subjects behind a
school building.

Sergeant Glen R. Hosier
Killed April 26, 1971, by a
subject being sought for
murder near Peru, Indiana.

In Memoriam

Trooper William J. Trees
Killed June 26, 1972, in an automobile accident while chasing a violator.

Trooper Lawrence B. Meyer
Died February 2, 1974, of a heart attack during a foot pursuit of an escaped prisoner.

Trooper Lewis E. Phillips
Died April 16, 1975, as a result of injuries sustained in an automobile accident.

Trooper Roy E. Jones
Killed July 3, 1979, in an automobile accident while en route to assist the Markleville Town Marshal.

Trooper Robert J. Lather II
Killed July 6, 1982, in an automobile accident as he assisted the Howard County Sheriff in pursuit of a speeding vehicle.

Trooper Steven L. Bailey
Died December 10, 1983, when his weapon accidentally discharged while attempting to serve a warrant.

Sergeant John E. Hatfull
Killed April 13, 1987, while leading the Emergency Response Team into the residence of a suicidal subject.

Master Trooper Michael E. Greene
Killed February 5, 1993, along Interstate 65 while arresting a person wanted on a warrant.

Trooper Todd A. Burman
Killed July 29, 1993, while assisting the Camden Town Marshal in the arrest of a disorderly person.

Master Motor Carrier Inspector Ralph R. Reed Jr.
Killed August 3, 1995, when he was struck by a vehicle while performing a truck inspection.

DNA Supervisor Kimberly S. Epperson
Killed November 16, 1995, in an automobile accident while en route to a training assignment.

Trooper Andrew P. Winzenread
Killed April 25, 1997, while assisting a disabled motorist along Interstate 74 in Decatur County.

In Memoriam

**Senior Trooper
J. Patrick Bartram**

Died March 31, 1998, of injuries sustained in a traffic crash near Mooresville, Indiana.

**Master Trooper
David A. Deuter**

Killed July 16, 1998, while conducting a traffic stop along the Indiana Toll Road.

Trooper Richard T. Gaston
Killed March 4, 1999, when a semi-tractor trailer drove off the roadway and struck the trooper's vehicle.

Trooper Cory R. Elson
Killed April 3, 1999, when a driver opened fire on him during a traffic stop on U.S. 27 in Decatur, Indiana.

Trooper Jason E. Beal
Died January 15, 2000, of injuries sustained when he was struck by a passing vehicle as he helped a wrecker operator.

Trooper Scott A. Patrick
Killed December 22, 2003, when a driver opened fire on him as he approached a disabled vehicle.

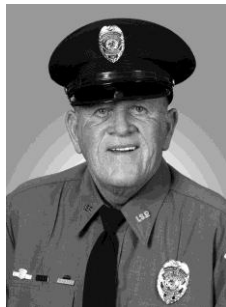

Lieutenant Gary E. Dudley
Killed August 22, 2006, of injuries sustained when he was struck by a box truck. Lieutenant Dudley was riding in a bicycle charity ride that honors fallen police officers.

**Master Trooper
David E. Rich**
Killed July 5, 2007, while stopped to assist a stranded motorist on US 24. The motorist shot Master Trooper Rich and then killed himself.

Trooper Daniel R. Barrett
Died January 27, 2008, while attempting to catch a speeding motorist. His car left the roadway and struck a tree on US 31.

**Master Motor Carrier
Inspector
Robert E. Pitcher**
Died September 26, 2010, when his vehicle collided with a semi-tractor trailer.
